Professional Summary

UI/UX Engineer with 10 years of experience building scalable, responsive, and accessible web applications for enterprise environments. Specialized in translating complex Figma designs into production-ready UI with strong expertise in HTML, CSS/SCSS, and modern React development. Recently expanded into building AI-powered SaaS products, including end-to-end development using React, TypeScript, Supabase, and AI-assisted workflows. Strong collaborator with cross-functional teams with a focus on performance, accessibility, and maintainable UI systems.

Core Skills

- Front-End Technologies: HTML5, CSS3, Bootstrap 4/5, JavaScript (UI-focused), jQuery, React JS, SASS/SCSS.
- Responsive Design & Optimization: Media Queries, Flexbox, Grid, Cross-Browser Compatibility, Web Performance.
- Tools : Git, GitHub, Visual Studio Code, Figma, Jira, Lighthouse, GTmetrix, Chrome DevTools,.
- Additional: Web Accessibility, Agile/Scrum, Unqork Platform (UI Configuration & Styling)

Certifications

- Google AI Essentials – Coursera
- CSS for Designers – Uxcel
- Introduction to Figma – Uxcel
- Unqork Novice Configurator Badge – Unqork

Projects

HealthTrack – AI-powered Health Monitoring SaaS

- Built an AI-powered SaaS application to monitor family health by uploading lab reports and tracking 26+ vitals
- Developed end-to-end UI using React, TypeScript, and Tailwind CSS
- Integrated Supabase for backend/authentication
- Used AI-assisted workflows (ChatGPT, Claude, Google AI Studio)
- Focused on scalable UI architecture and accessibility

Achievements, Awards

- Spot Award for outstanding UI contribution for consistently advocating for user experience, delivering high-quality UI solutions, and clearly communicating design decisions with well-structured rationale.
- Award of Excellence for outstanding UI contributions, exceptional expertise in styling, and consistent delivery of high-quality solutions for a strategic enterprise initiative.
- Team Excellence Award for collective ownership, seamless collaboration, and successful delivery of high-impact enterprise UI solutions.
- Best Team and Star Team Awards at Tata Consultancy Services for outstanding delivery and collaboration.
- Recognition for creating and presenting a UI/UX business model during leadership and stakeholder visits.
- Repeated appreciation from project managers and leadership for UI quality, performance, and design accuracy.

Professional Experience

Aiden AI Pvt Ltd

SENIOR UI ENGINEER | JUL 2024 - PRESENT

Worked on end-to-end UI delivery for enterprise Unqork-based applications, focusing on scalable UI architecture, design implementation, and cross-team collaboration.

KEY RESPONSIBILITIES & CONTRIBUTIONS

- Led UI implementation for multiple enterprise applications, ensuring high design accuracy from Figma
- Built responsive layouts using modern CSS (Flexbox, Grid) with consistent spacing and typography
- Developed scalable SCSS architecture with reusable patterns, improving maintainability
- Customized Unqork components to align with design systems and branding guidelines
- Created UI POCs to validate feasibility and solve platform constraints
- Improved UI consistency across modules (typography, spacing, visual hierarchy)
- Collaborated closely with UX, BA, PM, and client teams during design and implementation
- Mentored junior developers and contributed to internal UI guidelines and best practices

KEY PROJECTS

- Agent Onboarding Platform (Insurance Domain)
- Underwriting Metrics Dashboard

I-PAC (Indian Political Action Committee)

LEAD ANALYST | JUN 2023 - JUL 2024

- Spearheaded website redesign, emphasizing responsive development..
- Enhanced user interaction and engagement through JavaScript and jQuery
- Transformed design mockups into functional HTML/CSS templates.
- Efficiently managed databases using SQL and collaborated with backend developers.
- Implemented performance optimization techniques and conducted thorough testing.
- Ensured cross-browser compatibility and maintained clean, well documented code.
- Documented design and development decisions for effective knowledge sharing

Motivitalabs

SOFTWARE ENGINEER | OCT 2022 - MAY 2023

- Led the development of a React.js application, emphasizing industry standards.
- Utilized Bootstrap 5, React-Bootstrap, and React Material UI for UI development.
- Configured the routing module using React Router and demonstrated proficiency in React.js concepts.
- Integrated Material UI components and executed CRUD operations with axios/fetch.
- Extensively used Git for version control and collaborated with junior associates.

- Played a key role in the Enterprise Architect Team and served as a training coordinator.
- Created flow diagrams and business requirement documents for the React application.

Sreeal Technologies Pvt Ltd

UI DEVELOPER | SEP 2016 - MAR 2021

- Developed front-end using HTML5, CSS3, JavaScript, and jQuery with Bootstrap frameworks.
- Ensured compliance with industry standards through clear documentation and coding standards.
- Applied Bootstrap frameworks for enhanced functionality and optimized websites for speed.
- Conducted browser compatibility testing and demonstrated interest in UI design.

Tata Consultancy Services

SYSTEM ENGINEER | DEC 2012 - OCT 2015

- Conducted user flow analysis and accessibility assessment.
- Implemented web accessibility standards using HTML, CSS, and JavaScript.
- Acted as the Point of Contact for video conference meetings and contributed to team-building activities.

Education

VARDHAMAN COLLEGE OF ENGINEERING

BACHELOR OF TECHNOLOGY IN MECHANICAL ENGINEERING, 2008-12
